End Military Alliance so that the US can Lose its own Wars

Talking to media persons during his visit to Afghanistan on 23 October 2017, US Secretary of State Rex Tillerson declared a blunt warning to Pakistan, *"Clearly, we have to continue to fight against the Taliban, against others, in order for them to understand they will never win a military victory... It will be based upon whether they take action that we feel is necessary to move the process forward for both creating opportunity for reconciliation and peace in Afghanistan but also ensuring a stable future Pakistan... Pakistan needs to, I think, take a clear-eyed view of the situation that they are confronted with in terms of the number of terrorist organisations that find safe haven inside of Pakistan. So we want to work closely Pakistan to create a more stable and secure Pakistan as well."*

Rather than allowing Tillerson to enter Pakistan on 24 October 2017, if the rulers had even an ounce of dignity they would have slammed the door shut in his arrogant face. It is clear that the US is incapable of winning its own wars and depends on collaboration from the current rulers of Muslims entirely through military alliances. Musharraf exploited Pakistan's air force bases and intelligence in order to ensure the US invasion from an ocean away. Musharraf laid the foundations of the US private military and intelligence infrastructure which is key to the false flag black operations that the US uses the world over to keep its "military allies" engaged in its wars. Kayani and Raheel then exploited Pakistan's army to provide relief to the besieged US troops. Now Bajwa is to maintain a degree of military pressure, whilst persuading Afghan Taliban to lay down their arms and pick up pens and papers for the US to dictate terms of peace, through which it will secure a permanent presence within Afghanistan.

It is a similar story elsewhere and at other times, where the US depends on military alliances with Muslim states to achieve its own interests. It is never an alliance of equals and always an alliance of slave and master, exploiting the Muslim states resources to strengthen the US standing, regardless of the losses incurred by the Muslim states. RasulAllah (saaw) said, «لا تستضيئوا بنار المشركين» **"Do not seek light from the fire of the mushrikeen"** [Ahmed]. Fire (Naar نار) in Arabic is a Metonym (Kinaya كناية) for war for it is said, «أوقد نار الحرب» "He kindled the fire of war i.e. he stirred warfare." The strength of the Muslims does not lie in alliances with the enemies of Muslims. It lies in the unification of all the Muslim armies as one Muslim armed forces, with a righteous Khaleefah as its Imaam.

Tillerson Conveys to Bajwa His Marching Orders from Trump in his War of Fitna (Disorder)

After a meeting of the US Secretary of State, Rex Tillerson, with General Bajwa and Prime Minister Abbasi, the US Embassy Islamabad released a statement October 24, 2017 that said, "The Secretary reiterated President Trump's message that Pakistan 'must increase' its efforts to eradicate militants and terrorists operating within the country." So the new American catch phrase has been changed from the much reviled and mocked "do more," to "must increase." It amounts to the same thing, which is that Pakistan Army must fight Washington's war for it in exchange for military aid, which is peanuts compared to the loss of property and lives that Pakistan has endured for sixteen years as a result of the US war of Fitnah (Disorder).

In order to fulfill Washington's demands, Bajwa also has a new catch phrase that has replaced Musharraf's "hot pursuit" ploy. Musharraf used the threat of "hot pursuit" of Afghan tribal

fighters by US forces into Pakistan soil to persuade our armed forces to pursue the tribal fighters on America's behalf. Similarly, Bajwa is using "actionable intelligence" to convert US drone strikes into a prod for our armed forces in response to Trump's new orders. Reacting to the US drone strike on a militant hideout in Orakzai Agency, Army Chief Gen Qamar Javed Bajwa said on 14 June 2017 that "unilateral actions like drone strikes... Pakistan Army is capable of taking effective measure if actionable intelligence is shared."

The Pakistan Army is indeed capable, but why exploit its capability to act as a mercenary force under US direction and "actionable intelligence"? Is it not high time that our capable army is used to end the American Raj? A sincere Islamic leadership would ensure that the capable Pakistan Army would end the disruptive US presence. It would round up the US private military and intelligence that infiltrate and supervise attacks against our army to prod it into fighting the tribal Muslims, burning Pakistan in the fires of Fitnah (Disorder). It would seal the intelligence and terror funding bases which are camouflaged as the US embassy and consulates in the hearts of our major cities. It would sever the supply lines to the US crusaders in Afghanistan that cross the length and breadth of Pakistan. And it would stand shoulder to shoulder with the tribal Muslims in fighting the crusaders until they are expelled. And it would do so in response to the command of Allah (swt), ﴿وَأَقْتُلُوهُمْ حَيْثُ ثَقِفْتُمُوهُمْ وَأَخْرِجُوهُمْ مِّنْ حَيْثُ أَخْرَجُوكُمُ وَالْفِتْنَةُ أَشَدُّ مِنَ الْقَتْلِ﴾ **“And kill them from wherever you overtake them and expel them from where they expelled you, for Fitnah (Disorder) is worse than killing.”** [Surah al-Baqarah 2:191]

Pakistan's Foreign Minister Uses “Actionable Intelligence” as Excuse for US Slavery

Speaking to Pakistan's Senate on 25 October 2015, the slippery Foreign Minister, Khawaja Asif, confirmed that the US had handed over a list of seventy-five targets, on the top of which were the Haqqanis. Then under the sly cover of anti-US narrative, he confirmed that the regime would act on the list upon “actionable intelligence.” Any list from US is not actionable for Pakistan, regardless of its so-called “intelligence,” which is at best “questionable” and never “actionable,” as the world was witness to through US “evidence” of Weapons of Mass Destruction in Iraq. Any sincere leadership would have tore up the list in Tillerson's face, for it is not worth the paper that it is written on.

The US is an enemy state, which is at a state of war with the Muslims and its “intelligence” is full of lies and deceit to achieve its objectives. Through its crusade, called War on Terror, the US has directly caused the killing of hundreds of thousands of Muslims from Iraq to Afghanistan. Its intelligence and private military has undertaken numerous false flag attacks creating bloodshed and mayhem within Pakistan and ensnaring our armed forces on many fronts. After sixteen years of urging its cowardly troops to achieve victory, it has failed to break the will of the Afghan Taliban in general and the Haqqani network in particular. Bruised and battered, with its puppet “President of Afghanistan” no more than the “Mayor of Kabul,” Washington is turning to Pakistan yet again to bail it out, through providing it a list.

As for Pakistan's military and civilian leadership, it is dodging the strong anti-US sentiment within the people and the military forces, whilst providing itself a cover through the ploy of “actionable intelligence.” However, Khawaja Asif himself in his speech to the Senate pointed out how helping the US has always created trouble for Pakistan. He lamented Pakistan's assistance to the US during the time of the Soviet Russian invasion. He lamented how post 9-11, due to Pakistan's assistance to the US, we became “bounty hunters for the US.” However, such anti-US rhetoric is just a smokescreen, to allow continued subservience to the US.

Pakistan will continue to suffer whilst it has rulers that allow the American Kuffar to have authority over our affairs. The agent rulers will continue to use elastic terms such as “national interest,” “principled stance,” “maintaining sovereignty” and “actionable intelligence” to pursue slavery with the US, unless they are deposed. It is high time for the re-establishment of the Khilafah (Caliphate) on the Method of the Prophethood, which will act according to the clear commands of Allah (swt) and His Messenger (saaw) regarding the hostile Kuffar that are at war with us. Allah (swt) said, ﴿وَلَنْ يَجْعَلَ اللَّهُ لِلْكَافِرِينَ عَلَى الْمُؤْمِنِينَ سَبِيلًا﴾ **“And Allah swt does not permit the believers to give kafiireen authority over them”** [Surah an-Nisa'a 4:141].
