

The Support of the International Community for the Massacre in Jenin is Another Proof of the Hypocrisy of the Western civilization

News:

On July 10, 2023, the US CENTCOM announced the start of US-“Israeli” joint military exercises and described it as an unwavering commitment to the security of the Jewish entity. It stated, “U.S. Central Command and the ‘Israel’ Defense Forces conduct military exercise this week during Juniper Oak 23.3 in Israel. This event tests collective U.S.-‘Israeli’ readiness and improves the interoperability of both forces through bilateral cyber incident response, while U.S. F-16’s, KC-10, and KC-46 aircraft support air-to-air refueling, and agile combat employment (offensive air) within ‘Israel’... This event also demonstrates our full commitment to the security of the Middle East and ability to deter hostile acts against regional partners.”

Comment:

These war exercises started just a few days after the massacre of the Jewish entity in Jenin, where the occupation forces spilled Muslim blood, disregarding the so-called world order. Massacre of innocent Palestinians by ‘Israeli’ forces is nothing new. Day by day, these actions are taking place and the international community is only passing comment. Despite all these actions of the Jewish entity, the international community has never objected to the 3.8 billion dollars in aid that the Jewish entity receives every year, nor has it called such aid aiding and abetting a terrorist country.

In contrast, sanctions were imposed on countries that spoke against the Jewish entity, despite the fact that the Jewish entity often attacks its neighboring countries. Since 2010, the Jewish entity has attacked Iran dozens of times, including assassinations of scientists and important figures, drone attacks and cyber-attacks. In response to all of this, the government of Iran did not take any military action against the Jewish entity. It has only condemned and threatened.

For the past few months, the Jewish entity has attacked neighboring countries in the Middle East, yet America and the so-called international community are always concerned about the security of the Jewish entity, as if the whole world is attacking it.

The so-called international community has no moral stance or principles. It sheds crocodile tears in its summits of conferences. This is seen in the US and Europe's indifference towards the crimes of the Jewish entity, the Russia-Ukraine war, America's refusal to pay for climate change damages, or third world countries stuck in debt and dying at the hands of the same international community.

The colonialist powers have made it clear that this world order based on secular ideology. It has no ethics and they do not care about it. Their interests alone determine the direction of their stances. This is the reason why these secular countries all over the world had worn the mask of being liberal to hide their ugly face.

That mask is now falling off. The politics of Europe and the United States now revolves around the themes of the threat of immigrants and Islamophobia. Liberalism's mask is falling off as it is now being replaced by the Far Right.

All this indicates that this secular world order has now completely failed to lead the world. Any system in which the measure of right and wrong, permitted and forbidden is human reason, the values of this system will always change with human interest. When there is an interest, the Jewish entity will be described as oppressed, whilst the youth who fight against the occupying Jewish army are "terrorists." The world is filled with the corruption of this secular world order. Its failure and destruction is as clear as day.

The need is that the Ummah of the Holy Prophet (saw) should once again lead the world through the establishment of a Khilafah (Caliphate) based on the command of Allah Almighty, whose values, rulings and standards never change. And soon, not only Palestine and the Muslim world, but all of humanity will be saved from this cruelty. Then we will not see the oppressed Palestinians being martyred by the Jewish entity. Nor will we see the people being forced to commit suicide by the colonialist economic policies and institutions like the IMF. The world awaits its faithful guardian, the Khilafah. Ibn Taymiyyah (rh), who died in 728 AH, said in his book, "Mujmoo' al-Fatawwa," that, *يَجِبُ أَنْ يُعْرِفَ أَنَّ وَلَايَةَ أَمْرِ النَّاسِ مِنْ أَعْظَمِ وَاجِبَاتِ الدِّينِ بَلْ لَا قِيَامَ لِلدِّينِ وَلَا* *لِلدُّنْيَا إِلَّا بِهَا. فَإِنَّ بَنِي آدَمَ لَا تَتِمُّ مَصْلَحَتُهُمْ إِلَّا بِالْاجْتِمَاعِ لِحَاجَةِ بَعْضِهِمْ إِلَى بَعْضٍ وَلَا بُدَّ لَهُمْ عِنْدَ الْاجْتِمَاعِ مِنْ رَأْسٍ* "It is obligatory to know that the guardianship of people is one of the greatest obligations of the Deen. Moreover, neither the Deen nor the worldly life exists without it. The sons of Adam (as) cannot achieve their interests, except by gathering. This is due to the mutual need between them. It is inevitable that they need an authority, when gathered collectively."
