

The Zionist Occupation Is Weak All of Palestine Will Be Liberated by An Islamic Army!

News:

In the early hours of the morning of Saturday, 7th October, a new chapter on the occupation of the blessed land of Palestine has been written. Muslims have risen to liberate occupied territories in Palestine in a major operation. Unlike before, the Mujahideen from besieged Gaza have penetrated into territory outside Gaza, including several Jewish settlements, and the Zionist entity has suffered heavy losses in a dawn attack that took the occupying forces by surprise and has shaken them like never before.

Thousands of rockets from Gaza have been fired at the occupied territories, including the capital, Tel Aviv, which has been turned into a ghost town, as the occupiers hide in bunkers and shelters, if not heading towards the airport. The official figures at the time of writing are 250 dead and more than 1000 injured occupiers.

Comment:

In light of the above, it is worth noting the following:

- This Saturday the world woke up and saw decades of false media propaganda fall to the ground. The image of the strong, invincible Zionist army, which no Muslim army can overcome, completely shattered. The terrorist state proved to be as weak as a spider's web if just a group of Muslims fight back in a coordinated way. In a few hours, and with simple means, the ground beneath them was shaken and the cities were emptied of people.
- No matter how much the treacherous rulers of the Muslim world try to normalize relations with the occupier, it will never be accepted by the Islamic Ummah. The Zionist terrorist state is a cancer that Muslims will fight as long as the warmth of Iman beats in their hearts and the love of Islam runs in their veins.
- The treacherous rulers are the real protectors of the Zionist entity, and for decades they have sold the idea of the "lost battle" to force the Muslims to the negotiating table and acceptance of the occupation. It is only they who stand in the way of the total liberation of the blessed land, and just as the Zionist occupation, they are enemies of the Ummah. If a few heroic Muslims could shake the Zionist occupation with simple means on a single morning, how about a fully organised and well-equipped army?!
- The whole of Palestine is occupied and any attempt to expel and defeat the occupation is a noble and praiseworthy struggle, which the Muslims are well within their rights to do. It is not the Muslims who are aggressors or terrorists, but rather the 75-year-old illegitimate terrorist state and the thousands of settlers who have robbed the Muslims of their homes with murder and bulldozers. It is the duty of the Ummah in general to eradicate the Jewish occupation and specifically the surrounding Muslim armies who have the capabilities to end the occupation within hours.
- The repeated efforts of politicians and the media to distort reality and portray the occupier as a victim merely fighting a defensive battle against the people it has occupied, is not an accidental narrative. It is a continuation of the false narrative that the international community has established to support the occupation politically and morally, despite its total illegitimacy and inhuman brutality. This is in addition to the financial and military support, where Denmark, for example, sells weapon components to the occupation!
- Muslims everywhere, including in the West, must call for the liberation of Palestine, which is not a call to war against all Jews. It is a call to end the illegitimate Zionist occupation. Muslims have no less right to armed struggle throughout occupied Palestine, than Danish resistance fighters had against the Germans in the 1940s or the Ukrainians today against Russia. More importantly, fighting the occupation is an Islamic duty. The dishonest media and hypocritical politicians will not succeed in their propaganda as long as we dare to take the Islamic position clearly and with pride!
- In conclusion: The fighting Mujahideens have ignited the first spark. With Allah's help, the spark will ignite flames in the Muslim armies so that they break free from the shackles of the rulers, put an end to the Zionist occupation and liberate the blessed land, and thereafter liberating the whole humanity from the misery of colonial capitalism. And indeed, this is easy for Allah.
