

Muslims of Afghanistan and Pakistan Must Turn the Existing Challenges into Opportunities!

(Translated)

News:

A ten-member delegation of the Islamic Emirate of Afghanistan led by the Governor of Kandahar, Mullah Shereen, has visited Islamabad for a series of talks with Pakistani authorities. The visit of Afghan authorities is taking place whereas the relations between the two countries have been stormy due to the recent rise of TTP's attacks in Pakistan. Since the relations between Islamabad and the Emirate turned critical, this is the first time a top-level political and military delegation of the current Afghan government travels to Islamabad for negotiations. Some Pakistani sources have said that Pakistan's Acting Foreign Minister have asked the Afghan delegation to "take actions against TTP fighters in Afghanistan", – a claim the Islamic Emirate has repeatedly denied and has stressed upon negotiations between the two.

Comment:

For the time being, it should have been proved to the Muslim Ummah that such talks between the national governments imposed upon Muslim lands have never fundamentally solved the issues – but temporarily deescalating the tensions. This is because the colonizers have divided one Muslim land into several national entities by stretching artificial borders over the chest of Muslims, one of which is the Durand Line. This evil line has divided families and tribes into two parts, causing severe challenges, violence and disasters for the Muslims on both sides of the boundary.

These imposed nation-states, national ideologies, national borders, national flags, and the historical narrative of every nation-state have been enforced on the Ummah based on blind imitation from the infidel West and by the coercion of Western colonial powers that are in clear contradiction with the Islamic faith and the system of Islam. As this situation has contaminated the Muslim Ummah with ideological, political and geographical division and; they can never have a real and truthful cooperation with each other based on Islamic brotherhood. If someone challenges this claim, then they should tell us: What have the Muslims of Pakistan and Afghanistan done to stop the terror and atrocities of the Hindus inflicted upon the Kashmiri Muslims? What have they done so far?! Similarly, who kept preventing the Ummah to reach out to Palestinian Muslims, particularly the Muslims of Gaza against the Jewish entity's and US's joint-terror and genocidal acts?! It is very clear that these traitors and puppet rulers, nation-states and national borders are preventing it.

In this region too, a national Afghanistan is struggling with the curse of natural resources and strategic geographical location, leading colonial powers to colonize the country to plunder its natural resources and its geopolitical significance. Similarly, the national Pakistan has been cursed with nuclear weapons. Instead of being a cause of

Pakistan's power and hegemony, the nuclear weapons have made Pakistan a point of attention for the infidels (kuffar) to ensure that Pakistan's nuclear weapons are under control and surveillance so it does not fall in the hands of some sincere Muslims who could threaten the interests of colonial kuffar in the region through it. This is why, the US and the West pressurize Pakistan via its civilian and military leaders to have them occupied with political, economic and other crises, orbiting around India and turning no more into an independent Islamic front.

Additionally at this time of nationalistic divides, the Muslims of Pakistan and Afghanistan have faced with several challenges that can never be resolved under current circumstances. These issues can be solved only when Afghanistan, Pakistan and Central Asian countries unite under the umbrella of a unified Khilafah Rashidah (Rightly Guided Caliphate). If the fabricated national borders are removed with the Muslims in these lands start thinking about great interests of the Muslim Ummah instead of their national interests.

Thus, a wide geography, with a huge human population, armed with nuclear weapons, abundant natural resources, agricultural products and great potential of business will come into being. This is a great and Islamic objective, for the realization of which, Muslims should struggle days and nights.

Remember, at such time the TTP and other armed Islamic movements shall not be utilized for the conflict within, but for strengthening and enhancement of the Army of the Khilafah Rashidah. Then, instead of being discussed as an issue within, it shall be appropriated into the foreign policy assets of the Khilafah Rashidah (Da'wa and Jihad) and they shall fight towards liberating Kashmir and the conquest of India. So, O Islamic Emirate and the people, let's get together to materialize this great objective, let us all struggle for it day and night, so that we get ready for the realization of the prophecies of Prophet Mohammad (saw) such as the establishment of the Second Rightly Guided Caliphate the conquest of India, the movement of a great army from Khorasan towards Ilya (Palestine) and the liberation of Masjid al Aqsa. Because these are the great opportunities of our era, so these opportunities should be recognized in light of faith and we must work for its realization in a manner compliant with Sharia.
