

Those Who Watched the Fire of Gaza Were Condemned to Humiliation!

News:

During his meeting with Barzani, President Erdogan discussed regional and global developments and said, There is a risk that 'Israeli' aggression will turn the region into an all-out war zone. (Agencies 16.10.2024)

Comment:

President Erdogan has been acting with an expansionist understanding within the framework of the promised land of the Jewish presence in the face of the aggression of the Jewish presence in different media for several weeks. He had made a declaration of vulnerability to society by stating that Turkey was also in these territories. Now, although it is accepted as political language that he mentioned the risk of turning the aggression of the Jewish presence into a battlefield in his meeting with Barzani, similar to these statements, it should be known that they are actually expressions of shame.

Our rulers, who have not taken a single concrete step against the Jewish presence which has been committing genocide in Gaza for a year with the most shameful attacks in history and the concern of our leaders about Gaza is only a political fraud. Imagine, the sons of the Ummah, their bodies are being torn apart by bombs, they are being burned alive, their cries rise to the throne, but despite the huge army and facilities at their disposal, the leaders who cannot show the courage to stop a handful of Jewish terrorists are talking about the risk of war in the region! When Gaza was a part of the geography of the ummah, the fire there did not wake you up. Despite the fact that hundreds of thousands of innocent children and women were slaughtered, you were branded with humiliation by being stuck in your place. I find it difficult to understand what kind of risk the Jewish existence actually means for you to recognize a structure that you call a terrorist state as a state, to engage in diplomatic relations, to continue trading, albeit by devious ways. We are the target for the attacks of the Jewish community, so if you are not ashamed of this word when you say Turkey, we are ashamed on your behalf. Because you don't even realize that these statements of yours in the face of being attacked right and left by a handful of gangs that have been occupying the Palestinian geography usurpantly for 70 years are undermining your people, your history, your geography, your power and your faith. In fact, while the Jewish existence expands its aggression by taking courage from the cowardice, incompetence, and cooperation of our leaders, complaining about it is an attitude far from being explained by reason.

If Mr. Erdogan were really sincere, he would respond to this terrorist presence with military force, these sufferings would not have happened in Gaza. If you are really sincere, you will no longer remain silent about the massacres carried out by Jewish gangs in Gaza and Lebanon, but will mobilize the army. Thus, both the region and the geography under fire will put an end to this cruelty, and you will do what needs to be done, even if it is too late.

But know that as long as you throw the ball to organizations such as the UN, the Arab League, the Organization of Islamic Cooperation to end this persecution, your word will have no value, no sincerity. As long as you still continue to trade with this infidel being, no amount of your Hamas rhetoric will deter the Jewish infidel from his massacres. Unless you mobilize the armies, you will not be able to go beyond idle talk. Real statesmen, leaders do not scare their people against threats, on the contrary, they do what needs to be done by resisting such raging blasphemy with the power in their hands.

Reminder, Mr. Erdogan. As long as you recognize this entity as a state, the region is already at risk, and as long as you continue the relationship, they will continue to take strength from your non-reaction to the genocide they committed against the ummah.

Our prayer from our Lord is that he will immediately present the Caliphate that will eliminate this Jewish infidel and his supporters under the leadership of statesmen, leaders, fearless commanders.
