

Trump's Call for the Forced Displacement of Gaza's Population Reveals Important Truths

News:

At a press conference with the Prime Minister of the Jewish entity, Netanyahu, on February 4, 2025, U.S. president Donald Trump stated that Gaza should be cleared of its inhabitants, who should be expelled to neighboring countries. Whether this plan is executed or not, it is a continuation of the Zionist agenda to cleanse Palestine of its rightful people and turn it into a purely Jewish state.

Comment:

The idea of a two-state "solution" is dead, after Arab rulers have repeatedly betrayed Islam, the Muslim Ummah, and Palestine in pursuit of a futile plan to "legitimize" the genocidal Jewish entity, with the sole aim of appeasing their American slave-masters who now bury this same plan with their own hands.

Trump's statements underline the reality that the United States not only supports the Zionists in their crimes against the rightful people of Palestine but actively shape the policies that sustain and empower the Jewish entity. The Zionist occupation has always been part of the West's colonial project for the Muslim world. It is only through the continuous betrayal of Muslim rulers that both the U.S. and the Zionist occupiers have been able to carry out mass killings, forced displacements, and desecration of our blessed land without consequences.

While Trump's statements have caused much discussion, both domestically in the U.S. with many politicians and commentators condemning the statements and internationally with experts and rights organizations calling the stated plan both illegal and unrealistic, these points are all secondary.

For 15 months of genocide and ethnic cleansing, rather for more than 75 years, we have seen the colonialist state of USA itself established on ethnic cleansing and genocide and stood behind every atrocity committed against the people of Palestine by the Jewish occupiers. Rights and legality play no role whatsoever in the colonialist foreign policy of the U.S, nor is its unwavering support for the Jewish entity motivated by any moral considerations or compassion for the Jews who were oppressed and killed in the West during and before WWII. On the contrary, The U.S. has adopted the Jewish entity as a strategic means to sow constant chaos and division in the heart of the Muslim lands, and to act as a Western military base – an advanced front – in the war against Islam and the Muslim Ummah. This war is not only for the material purposes of geostrategic power and valuable resources in our lands, but more importantly it is an attempt to prevent the Muslim Ummah from uniting and rising under the banner of Islam.

As Muslims, however, we have full trust in the promise of Allah and His Messenger (saw). Palestine will be liberated, Islam will rise in strength, and through the courage and hard work of righteous men and women—like the heroic Muslims of Gaza—this Ummah will stand again. The question remains: when will we, the global Muslim community, recognize these truths and join the effort to bring down the treacherous regimes holding us back and empowering the enemy? When will we free ourselves from Western colonial domination by re-establishing the Khilafah, lest Allah replaces us with those who will do better than us?
