

After Founding the Secular System that Tears up the Country through the National Dialogue...

America is on the Verge of Releasing a Mercy Bullet upon the Islamists of Sudan

(Translated)

On Tuesday 18/01/2016, the General Secretariat for the National Dialogue began the preparation of a document of the outcomes of the Dialogue to be approved at the beginning of this February. It is the document that is intended to become the basis of the forthcoming Sudanese constitution.

America has first initiated the call for a national dialogue in Sudan on 13/08/2013 in a paper titled: 'The path towards a national dialogue in Sudan' under the reference number: 'Peace Outline Number 155'. And within it, it was mentioned: 'The time has come for Sudan to begin a real domestic dialogue and a reform programme that will lead to a government representative of a greater platform and democracy'. And it wants from this dialogue the founding of a secular system; completely secular, in which the symbols and laws that have an Islamic character are stripped and removed. In line with that was the statement of the authorised representative of the Sudanese Foreign Minister when he said, "Sudan is a State that has no Deen" (Alyoum Altali Newspaper, 05/08/2016). This secular system leads a Machiavellian foreign policy even playing the hypocrite with the usurping Jews in order to normalise relations with it as the Foreign Minister Ghandur said, "The government does not have a problem studying the issue of normalising relations with Israel" (Assayha Newspaper, 15/01/2016). And it is intended through this secular system to tear apart the country through federalism self-governance which has become a right enshrine in the constitution. Added to this is what emerged from the bilateral government meetings with 'People's Movement' (SPLM) which is demanding self-rule in the Kardofan and Blue Nile regions, and their meeting with the armed Darfur movements who are demanding more authority in addition to the resources of Darfur on top of a wide self-rule.

America is the main player in Sudan's political life through the African Union, high ranking tools, Thabo Mbeki and its envoy to Sudan and South Sudan Donald Booth... And it's not far off from America, after the rulers of Sudan founding a blatant secular state in Sudan, to reward them for their most recent crime with the repayment of firing a mercy bullet upon them and excluding them from power. That is because they are those who separated the south of Sudan from its North and they are those who revived the strife of tribalism, racism and regionalism; placing the country upon the brink of division upon regional, ethnic and tribal bases. And they are the ones who have impoverished the land and its people whilst being associated with every kind of corruption in all of its form. For this reason, they have become hated within Sudan and as a result they have become a burden for the American plans. That is because they are incapable of deceiving the people and misleading them with their false and fake speech about Islam... And as is usual with the colonialists they throw their agents into the middle of the road when their roles and usefulness has run its course. Then they would be losers in this life and the Next:

﴿ذَلِكَ هُوَ الْخُسْرَانُ الْمُبِينُ﴾

"And that is the manifest loss" [Al-Hajj: 11].

America, through some of the officers, in their description as the authority lying within the army, are striving to establish a secular system in Sudan, led by a force which is a blend of secular politicians and those who carry arms. Through this they wish to exclude Islam, prevent the application of its Ahkaam (rulings) and systems of life and to delay the revival of the Ummah but they are indeed doomed to failure!!

Islam is the Aqeedah of the people of Sudan; it is what moves them and they know with certainty that this regime has no relationship with Islam, that all of this misery that languishes under it is nothing more than the fruits of this secularism, and that the application of Islam and its systems under the shade of the rightly guided Khilafah (Caliphate) upon the path of the Prophethood represents the radical solution for all of their problems, which will come to be soon by the permission of Allah *Subhaanahu*.

And in conclusion, a message to the people of power and prevention:

Until when will you remain silent and immobile in the face of these projects and plans of the western disbeliever (Kaffir); the exclusion of Islam from life, the separation of South Sudan and the secularisation and tearing up of the rest of the land? Has the time not come for you to comprehend your responsibility before Allah (swt) and before this great Ummah that you belong to?

That is because you are capable of reversing the plans and objectives of the western disbeliever and to embrace the Ummah's project and consolidate it. This is the rightly guided Khilafah in which the people will live an Islamic life and the meddling hand of the West will be severed, in order for the Ummah to resume the carrying of its Da'wah; the Da'wah of goodness to mankind.

O grandsons of the pious and strong who undertook Jihad for Allah's sake and have it its true right, the grandsons of the Sahaabah, those who followed them, the leaders and conquerors, the grandsons of the victor Salahidin, the defeater of the crusaders and the grandsons of Birbas the defeater of the Tatars... The list of honour is long and your place upon it still remains vacant awaiting for you to rise and support the Deen of Allah through your announcement of the second rightly guided Khilafah upon the way of the Prophethood.

﴿وَيَوْمَئِذٍ يَفْرَحُ الْمُؤْمِنُونَ * بِنَصْرِ اللَّهِ ۚ يَنْصُرُ مَنْ يَشَاءُ ۚ وَهُوَ الْعَزِيزُ الرَّحِيمُ﴾

“And on that day the believers will rejoice, with the victory of Allah. He grats victory to whom He wills and He is Al-‘Azeez Ar-Raheem” [Ar-Rum: 4-5].
