## US is using Kabul Bloody Explosions and Subsequent Ethnic Rift as Play Card

(Translated)

Hizb ut Tahrir Wilayah Afghanistan strongly condemns the recent bloody attacks in Kabul and would like to highlight the following in this regard:

The sheer magnitude and perfect technological sophistication of these attacks show that occupation forces in the country, Western intelligence networks and their Afghan puppets were involved in these attacks. Colonialist countries use “terrorism” as means to take advantage of the spilled blood of Afghans to achieve its strategic objectives. In the aftermath of the incidents, the US is encouraging flare up of ethnic and tribal hostilities among political groups and the public to continue and prolong its occupation. In a similar strategy, it set Iraq and Syria on fire and ensnared civilian war by provoking and engineering religious divisions.

The Mujahid nation of Afghanistan should not engage in ethnic and tribal disputes which is made prohibited (haram) by Islam in absolute terms. Rather, they should consider the root cause of such terror which is US-NATO occupation, and should unite to get rid of the authority of Kuffar and establish Khilafah Rashidah (Righteous Caliphate) on the methodology of the Prophethood.

«أَيُّسَ مِنَّا مَنْ دَعَا إِلَى عَصَبِيَّةٍ وَأَيُّسَ مِنَّا مَنْ قَاتَلَ عَلَى عَصَبِيَّةٍ وَأَيُّسَ مِنَّا مَنْ مَاتَ عَلَى عَصَبِيَّةٍ»

“He who calls to Asabiah (tribalism) is not one of us, He who fights for tribalism is not one of us, and he who dies for the sake of tribalism is not one of us.” (Abdu Daud)
