

Press Release

O Army of Egypt: Where Are Your Air Defenses?!

Jewish Planes Bomb Gaza Hashem Day and Night While You Watch!!

(Translated)

Yesterday, the Jewish forces carried out a new massacre in Gaza Hashem, and it was more horrific than the previous ones, continuing to challenge the Islamic Ummah in trying to break its will and the will of its mujahideen.

Jewish planes were able to commit these atrocities over the past days because Gaza Hashem is prohibited from possessing air defenses. But the Egyptian army of Kinana, adjacent to Gaza, possesses air defenses capable of clearing the skies of Gaza from the aircraft of the Jewish entity, such as the famous S-300 system, which is equipped in four battalions, as well as Patriot missiles, of which it possesses 32 systems, as well as the IRIS system, the Hawk system, the Tor system, and many other air defense systems (missile and anti-aircraft) capable of clearing the Gaza sky of criminal Jewish aircraft.

But the ruler of Egypt decided to send a humanitarian aid convoy of food and medicine instead of sending the Kinanah army with its air defenses to protect Gaza and its people from the death that continues for days!

How long will these armies, trained and equipped to fight, remain silent about their rulers' betrayal and prohibiting them from jihad for the sake of Allah?! Rather, how long will the action to liberate the Blessed Land of Palestine from the usurping Jewish entity be delayed?!

The first thing that people need is to regain their authority by expelling the influence of the Kafir (disbelieving) West from their lands. By uprooting the agent rulers, the hand of colonialism will be cut off from our lands, and then the Ummah's options will be known, which are to liberate the Blessed Land of Palestine and establish Allah's Shariah in it.

To all loyal media professionals, owners of podiums and platforms, and influencers who are furious about what is happening in Gaza Hashem: Announce it clearly that stopping the war on Gaza is the duty of the Muslim armies that have been trained, armed, and prepared for wars. Your duty is to highlight this truth to the public opinion. Do not confuse public opinion with other slogans that waste time and distract efforts. Rather, confirm this truth to the Islamic Ummah, as it is the shortest way to stop the aggression taking place on the Blessed Land, and start with this question: Where are the anti-aircraft guns, O army of Egypt?!

Allah (swt) says: ﴿وَإِن اسْتَصْرَوْكُم فِي الدِّينِ فَعَلَيْكُمُ النَّصْرُ﴾ "But if they seek your help 'against persecution' in faith, it is your obligation to help them" [Al-Anfal 8:72].
