The Jewish Entity: America's Military Base in the Region which it will Never Abandon
(Translated)

On Saturday, January 4, 2025, the U.S. State Department announced, according to the news site Axios, a proposed arms deal worth \$8 billion with the Jewish entity. The deal includes munitions for fighter jets and attack helicopters, in addition to artillery shells. CNN reported, citing an American official and a knowledgeable source, that "the State Department sent an informal notification of the sale to the House Foreign Affairs Committee and the Senate Foreign Relations Committee on Friday." The Biden administration had previously approved arms deals for the Jewish entity exceeding \$20 billion in August.

Once again, America affirms that the Jewish entity is its advanced military base, which it will never abandon. Since its embedding in the heart of the Muslim Ummah, America has continuously nurtured and ensured its survival, providing it with strength and the means to fulfill its assigned role. Thus, the U.S. continues to fund and equip it with the most advanced and lethal weapons, despite the massacres it has committed and continues to commit against the people of Gaza, including children, women, and the elderly, as well as the destruction of homes, hospitals, schools, and shelters.

Although the Biden administration is counting its final days, it has chosen to end its tenure by funding the Jewish killing machine, reaffirming that America remains the furthest from humanity, mercy, and justice. All its slogans and claims about human rights, freedoms, and democracy are mere idols crafted for its colonial interests, readily crushed when its objectives demand so.

Since the Jewish occupation of Palestine, America has continually supplied their entity with the means to survive, thrive, and strengthen, providing it with protection from the surrounding Islamic environment that seethes with resentment. America tirelessly works to polish the entity's global image, ensures political and international cover for its crimes against Palestine and its surroundings, and maintains it as a poisoned dagger in the heart of the Ummah, hindering its unity and progress, while serving as an advanced military base for the U.S. and the West for swift intervention.

The Ummah must recognize this reality and act upon it to support Gaza. Victory (nusrah) for Gaza will not come by relying on the international system dominated by America, nor by expecting pressure from America on the Jewish entity, for their interests are one and the same. Instead, the Ummah must move toward uniting under a single leader in the second Khilafah Rashidah (Rightly Guided Caliphate), which will gather its ranks and unify its armies, putting an end to the arrogance of America and all colonial powers, and eradicating the Jewish entity.
