O Muslims: Your Enemy Knows Your Weight Better Than You Do, and Fears You and Takes You Seriously a Thousand Times!

(Translated)

Day after day, events and positions uncover many evidence of the kafir colonialist states' fear of Muslims, including the pariah Jewish entity. They also show that when dealing with Muslims, they take it seriously a thousand times. After more than a century, after the destruction of the Khilafah (Caliphate), the fragmentation of Muslims into weak, subservient entities, the accompanying deception and intellectual invasion, the distancing of Muslims from their belief, the plundering of Muslim wealth, the expansion of the influence of the kafir colonialists in their lands, and their weakening and humiliation, some even say: Muslims will never rise again, and after all this, we hear and see statements from Western leaders and the leaders of the pariah Jewish entity, which demonstrate their fear of Islam and the terror that fills their hearts from Muslims in this state.

French Foreign Minister Jean-Noël expresses his concerns about Iran's nuclear program, saying it poses a threat to the so-called "Israel" and to Europe, even though Iran, like other countries and entities in Muslim countries, does not govern by Islam. The Prime Minister of the pariah Jewish entity says he will achieve the goals of the war and eliminate the nuclear threat posed by Iran. European Commission President Ursula von der Leyen, in a tweet, affirms Europe's position rejecting Iran's possession of a nuclear weapon. America periodically sends its warships and aircraft carriers to the region, the latest of which was the aircraft carrier Nimitz. It sent twenty-four refueling planes to the region, fearing that the situation there might escalate and to reassure the Jewish entity, which relies on America and the West in its wars with Muslims.

This is in addition to their statements expressing their fear of Muslim unity, the establishment of the Khilafah state, and their fear of calls to mobilize armies in Muslim countries. They are aware of the great danger that Muslims pose to the West and its civilization if they were to unite in one state. They take this into account a thousand times and are trying with all their strength, cunning and deceit, along with their agents in Muslim countries from among the rulers and others; they are trying with all of this to prevent the establishment of the Khilafah state, which has become the hope of Muslims and the aspiration that their eyes and hearts yearn for, its establishment is now just around the corner.

Indeed, O Muslims, your enemy fears that some of you might possess weapons that could threaten it. Your enemy knows your true weight and the secret of your strength, which is in your belief and your ideology. Your belief has made you the best nation brought forth for mankind. Your belief has made you witnesses over mankind by carrying the message of Islam to them. Your belief has necessitated your unity, made your war one, and your peace one. Your belief has linked your existence to Allah (swt); you rely on Him, seek His help, and with Him you are victorious over your enemy.

O Muslims, some of you will say: Your rulers prevent you from fighting and from jihad, and that the armies in your country are bound by the orders of those rulers. This means that you have come to know the reason for the state you are in, and you know the reason for your defeats at the hands of a small group of outcast Jews, and you know the reason for the dominance of the kafir colonial Western countries over your country. So, direct your arrows at those insignificant ignorant (ruwaibidha) rulers, and unite your efforts to oust them and install a single Caliph who will rule you according to the Book of Allah (swt) and the Sunnah of His Messenger (saw). Hizb ut Tahrir, the pioneer who does not lie to his people, the bearer of the Khilafah project, seeks your support to achieve your unity, please your Lord, and restore your honour and dignity, so give it your support.
