UN Kills the Victim and Walks in his Funeral

(Translated)

The United Nations said on 17 January 2017, that the conflict in Yemen left more than ten thousand people died in the war between Arab coalition, led by Saudi Arabia under the pretext of supporting legitimacy, and the rebellious Houthis on the so-called legitimacy! And who America and the United Nations are seeking to involve them in power. It added that the death toll from the war in Yemen, "confirms the need to resolve the situation, especially with the rising number of Yemenis affected by war circumstances of lack of food and disease."

With the continuous escalation of the fighting in Yemen, the acuteness and gravity of the humanitarian crisis increases, making the situation catastrophic and beyond description ... Ten thousand people dead, and that is the announced only! The war continues with millions of people of Yemen suffer from the trilogy of war, hunger, and disease, and lack access to basic needs such as health care and education, at a time when the Arab coalition militias and rebels' forces have not hesitated to disseminate chaos, killing, and violating blood and souls. Service to the Anglo-American conflict on the region under the name of supporting legitimacy or withdrawing it.

Yemen, which is located in the natural resources triangle and occupies a high rank of the largest oil and high gas reserves, is subject to rival political disputes led by Britain and America, each of them pursue the separation scheme if it saw it serves its own interests and under the cover of sectarian and tribal war, support for legitimacy and fighting (terrorism and extremism). Bodies and international organizations are working in this same pot to kill the victim and walking in his funeral, claiming the care of human rights and the achievement of security!! The international drama scenarios traded in the Arab region, from its east to its west, have become exposed and unmasked. For the United Nations utilizes all its energies to take care of the American interests niftily, by renewing the slogans of denounce and anxiety, in order to hasten resolving the crisis through more negotiation and making concessions, to prove every time that it is a failed and redundant authority.

The solution in Yemen will not be born from the spine of the criminal organizations nor by reliance on the decisions of the so-called international community and international law, but from the spine of the Aqeedah of the Ummah; through arbitration of the solutions of Islam and a commitment to the Lord's law. What Yemen needs is the rightly guided Khilafah (Caliphate) State on the method of the Prophethood, that protects its rights and spares its blood and withholds the hands of the Kuffar and evil from it.

So, O the armies of the sincere Muslims! Fear Allah in the blood of this Ummah and work to support your oppressed Muslim brothers and carry up your arms rightfully... O the armies of the Arab Coalition from Emirates, Jordan, Saudi Arabia and Kuwait be ashamed before your Lord, from what your hands commit of killing your brothers in Yemen and intimidation of their children and their wives, to please the agent traitors rulers for your recompense will be wrath of Allah and a curse of the oppressed ... O the Iranian regime, its parties, and militias stop your hands from meddling with the Muslims countries and igniting sedition and achieving colonists schemes on the blood of Muslims.
