## More Bloodshed, and the Ummah Groans Due to the Abandonment of the Muslim Armies!

(Translated)

Allah (swt) warns in the Revelation against killing a single Muslim soul, and that killing it is like killing all of humanity. He (swt) also emphasized the sanctity of Muslim blood, which He (swt) regards as greater than the sanctity of the Sacred House. So, what makes anyone dare to shed the blood of Muslims as if it were wasted water without an owner?!

In Sudan, recently, 300 Muslims were killed in a heinous massacre. The National Commission for Human Rights in Sudan announced on 4/5/2025, that at least 300 civilians, including 21 children and 15 women, were killed in an attack carried out by the Rapid Support Forces (RSF) in the city of En-Nahud, West Kordofan State. This followed acts of murder and looting carried out by the forces in the city after they took control of it. This initial toll later increased.

Since 15/4/2023, the Rapid Support Forces have been fighting the army for control of Sudan, killing thousands and creating one of the world's worst humanitarian crises. More than 20,000 people have been killed and 15 million displaced, according to the United Nations and local authorities. However, research by American researchers estimates the death toll at around 130,000.

Sudan is a deep wound in the body of the Ummah, afflicted by what afflicts this body, overburdened with stab wounds. Despite its weakness, its enemies remain fearful of its revival, inflicting blow after blow, while the dogs of the earth devour this body without accountability or oversight.

This blood being shed in Sudan is a match for the blood of the people of Gaza that is being shed by the Jews, and a match for the blood of the Muslims of Bangladesh and Pakistan. All are the pure Muslim blood of innocent people who have done nothing wrong. It will bear witness before Allah (swt) to the failure of our armies, which are undoubtedly the winning card when the Ummah mobilizes it well. It is the winning card in the hands of the criminal rulers as long as they can rob them of their will, shackle their capabilities, and prevent them from supporting the Islamic Ummah.

The struggle today is a battle of awareness about the necessity of the Ummah's urgent and serious action to confront the regimes' attempts to quell any feelings of anger, reactions, or signs of military mobilization. It must recognize that salvation will only come by eliminating these tyrants and by giving Nusra (material support) to Hizb ut Tahrir, which will restore the Ummah's authority and prestige, and restore the sovereignty and rightful place of Shariah in governance and life.

This blood will continue to flow like a waterfall everywhere that Allah will be testing the hearts of His servants with. He (swt) will choose martyrs from among them, making it a proof against the cowardly, a curse upon the conspirators, and a light for the sincere. Soon, it will be a fire that will burn the oppressors.

“...And they will ask ‘When will that be?’ Say, ‘Perhaps it is soon!’” [Al-Isra: 50]
