The Government of the Regime in Jordan Disgracefully Insists on Implementing the Malicious Colonial Program of the International Monetary Fund!

(Translated)

At a time when the people of Jordan look forward to the actual salvation from the bitter reality in which they live in the absence of Allah's rule in governance and in the reality and the organization of their lives politically, economically and socially, and the unprecedented state of oppression and livelihood in which they live because of the accumulated futile failed policies since the establishment of the Jordanian entity and its regime at the hands of Britain, the head of Kufr then. As a result of the unjust and helpless oppressive laws, which were formulated with the capitalist, political expediency minds that are detached from the Ummah, and the provisions of its religion and culture, and are captivated by the rotten capitalist thought and its brutal and destructive system that afflicted the peoples on earth.

Those policies and laws that lost people's dignity, and increased the rates of poverty, unemployment and crime and led to the raising of prices and the imposition of taxes by the laws of levying and oppression. Those policies and laws that opened the door to the robbers to loot public money and to squander and waste the wealth. Those policies and laws that led to dumping the country in astronomical debts and plunged the country into corruption, which entrenched all parts of the state and the government, and enabled the corrupt people and their regime to dominate the people of Jordan, and control their destiny, power and fuel...

At this time of widespread protest against this bitter and shameful reality, the regime's government, uncaring of the masses who reject its project, disgracefully insists to continue to carry out the malicious and destructive colonial program set by America in its two parts: the political one which it (America) entrusted its execution to its cronies and men of influential politicians, and economic part which is imposed by the International Monetary Fund (IMF), the America's colonial economic tool, to bring the people of Jordan to submit fully to the dictates of America, political programs, intellectual and security agenda at the domestic level, and to surrender to its malicious projects in support of the Jewish entity at the regional level as well as to silence it on the fight against Islam at the international level...

This insistence was confirmed by the statement of Hani al-Mulki, the head of the regime's government, who said that: "it is linked to the IMF and he cannot reverse the income tax law." Ignoring the state of awareness by which the Muslims in Jordan have realized that they are being targeted in their religion, sanctities and their well-being by America which uses the IMF and the World Bank to impose its will and hegemony on states and peoples.

O people:

The capitalist economic system is a corrupt system that can only generate crises and economic and financial problems, and by its very nature, it distresses the people and sucks their blood, and is intrinsically increasing the impoverishment of the poor, expanding the poor sector, oppressing and exploiting the people for the benefit of the ruling class and the capitalists. So, there is no salvation for us in Jordan from this bitter reality with the solutions emanating from the capitalist system applied on us, but its solutions and treatments will only accelerate our full dumping in to quagmire of loss, chaos and subordination and will enable the colonial powers, led by America, to tighten its control over the country and the people.

O People in Jordan:

The radical solution that saves you from this painful humiliating reality lies in Islam, its system and its provisions, which organized all aspects of life the best organization, and treated the economic problems the best treatment. Allah Almighty said: ﴿وَنَزَّلْنَا عَلَيْكَ﴾ **“And We have sent down to you the Book as clarification for all things and as guidance and mercy and good tidings for the Muslims.”** [An-Nahl: 89]

We in Hizb ut Tahrir have been advocating and working for decades with the Ummah and through it to resume the Islamic way of life by applying the provisions of Islam and its system, in which is our salvation and the salvation of all humankind from this increasing desolation and misery day after day.

We in Hizb ut Tahrir are fully prepared to carry out the legitimate duty which we have not and will never refrain from, with Allah's permission, to show this system of Islam to politicians, economists, intellectuals; those interested in public affairs, and people of opinion and influence, and explain its successful and productive economic and political solutions and treatments which we invite them to embrace and advocate if they truly want to rid and save the Ummah of this bitter and dreadful destructive reality, especially since we in Hizb ut Tahrir are absolutely convinced that there is no salvation except with Islam as a system of government and a system of life, and that the deportation of economic and political problems and crises will not help, and that temporary patching solutions will soon disappear, the violation will rapidly widen, and things will become worse by the adherence to the capitalist system as an economic system of the country and under the weight of the corruption, submission and subordination...

﴿وَلَوْ أَنَّ أَهْلَ الْقُرَىٰ آمَنُوا وَاتَّقَوْا لَفَتَحْنَا عَلَيْهِم بَرَكَاتٍ مِّنَ السَّمَاءِ وَالْأَرْضِ وَلَٰكِن كَذَّبُوا فَأَخَذْنَاهُم بِمَا كَانُوا يَكْسِبُونَ﴾

“And if only the people of the cities had believed and feared Allah, We would have opened upon them blessings from the heaven and the earth; but they denied [the messengers], so We seized them for what they were earning.” [Al-A'raf:96]
