Brutal Aggression and Breaking of Pledges: The Unveiled Truth about the Nature of the Jewish Entity

(Translated)

With the ceasefire between the US and the Jews on one side, and Iran on the other, coming into effect on the night of 8/4/2026, and amidst conflicting reports about whether Lebanon was included in this agreement, the Jewish entity launched over one hundred airstrikes in ten minutes on Wednesday afternoon, 8/4/2026, targeting all parts of Lebanon. This clearly demonstrates its treacherous and criminal nature, which disregards any agreement, pledge, sanctity, or human rights.

This is yet another chapter in the chapters of treachery, which has never been strange to an entity founded on the violation of sanctities, the shedding of blood, the destruction of buildings, and the displacement of innocent people. In just a few minutes, this attack resulted in nearly a thousand casualties, including both dead and wounded, the destruction of dozens of buildings, the displacement of thousands, and the terrorizing of tens of thousands more.

In the face of this crime, we affirm the following:

First: The repeated breaking of covenants and deception in agreements by the Jewish entity is a historical phenomenon dating back to the time of Prophet Musa (peace be upon him) until today. This proves that any talk of agreements with them is worthless and their intentions cannot be trusted. As Allah (swt) says of the Jews: **“You will surely find the most bitter towards the believers to be the Jews and polytheists”** [Al-Ma'idah: 82]. Allah (swt) says: **﴿كَيْفَ وَإِن يَظْهَرُوا عَلَيْكُمْ لَا يَرْفُقُوا فِيكُمْ إِلَّا وَلَا ذِمَّةَ يُرْضُونَكُمْ بِأَفْوَاهِهِمْ وَتَأْبَىٰ قُلُوبُهُمْ وَأَكْثَرُهُمْ فَاسِقُونَ﴾** **“How ‘can they have a treaty’? If they were to have the upper hand over you, they would have no respect for kinship or treaty. They only flatter you with their tongues, but their hearts are in denial, and most of them are rebellious”** [At-Tawbah: 8].

Those who hope that these agreements and treaties will include, or guarantee, the protection of Lebanon or the neutrality of its civilians are deluded and their hopes are wasted. While international promises were being made, planes were being prepared to wipe out families in their homes. This confirms that this entity uses negotiation as a smokescreen, waiting for an opportunity to betray. If pressure increases on it from some parties due to international interests, not out of concern for the blood of Muslims from these parties, the traitors will raise the cost with bloodshed!

Second, the Lebanese authorities' reliance on negotiation is a losing bet under normal circumstances, and it is an even greater loss given the arrogance and aggression of America and the Jewish entity and their war against the Muslim Ummah. Trump, for instance, downplays the events in Lebanon, describing them as a "separate skirmish"!

History has never recorded an aggressor stopping through hope and wishful thinking, especially with a usurping entity like the Jewish entity, which was founded on the usurpation of the rights of the people of Palestine and the shedding of their blood. Rather, it understands and fears only the language of force and a firm confrontation that deters its tyranny.

Third: Confrontation is the only solution with this criminal entity. What is happening is not merely a military campaign, but a new and undeniable revelation of its criminal nature, proving it to be a cancerous tumor in the body of the Ummah, whose presence brings no stability to any region and no peace to any state.

Fourth: The elimination of this aggressive approach must not remain a mere slogan, but has become a legitimate, humanitarian, and moral imperative for restoring genuine security and tranquility in the Middle East, and indeed, in the world.

Fifth: The blood spilled today in the South, the Bekaa Valley, Beirut, and every inch of Lebanon is a new cry, following the cry of Gaza, resounding in the face of the entire world: **This entity does not honour a pledge, cannot be trusted, and there is no peace as long as it exists.**

Sixth: The only solution lies in eradicating this entity. O Muslim Ummah, when will you fulfill the words of the Prophet and rise up against this entity to eliminate it? The Messenger of Allah (peace and blessings be upon him and his family) said: «تُقَاتِلُكُمْ يَهُودُ» **"You shall fight the Jews. You will gain such control over them, that a rock will say: 'O Muslim! This Jew is behind me so kill him!'"**

Seven: If efforts are united and Muslims rose up against this entity, then that malignant disease would end, we would seize its weapons and wealth, we would reclaim Al-Aqsa Mosque, we would liberate the prisoners, and we would liberate the environs of Al-Quds. This will happen very soon, and that is not difficult for Allah to fulfill. ﴿وَيَوْمَئِذٍ يَفْرَحُ الْمُؤْمِنُونَ﴾ **"And on that day the believers will rejoice"** [Ar-Rum: 4].
