Iran's Party Media Co-operates with the Kuffar against Muslims

(Translated)

Al Manar's website, which is linked administratively and politically to Iran's party mentioned a news story citing the Russian agency "Sputnik" under the title: "14 people were arrested in the Russian Republic of Tatarstan on charges of organizing a terrorist cell"; in the news piece it mentions: "widespread arrests took place in Tatarstan on the background of criminal cases relating to the activities of the terrorist group, Hizb ut Tahrir which is banned in Russia."

Iran's Party did not stop at the killing of innocent Muslims and standing by the side of American colonialism and fighting under the banner of Russia the criminal state, but it surpassed all this, and its media began to speak the Kaffir's language.

Here we ask them: where does your loyalty lie?! With the Muslims or their enemies?! By choosing this news piece is a premature answer from you, you preferred the loyalty and the co-operation with the Kuffar over the Muslims. You became an integral part of the colonial system, and your main cause now is how to maintain this system. Regarding the events in Ash-Sham, you have become a killing tool fighting under the cover of the heinous sectarianism, and regarding the events in the land of Muslims in Tatarstan, you repeat the words of its occupiers who arrest those who carry the message of goodness to mankind. How can your stance be in favor of the disbelieving Russia's stance that occupies Muslims in Tatarstan?! The support of the Kuffar against Muslims is a crime in the Deen of Allah, affecting the small perpetrator in this world and in the Hereafter lies a painful torment, ﴿سَيَصِيبُ الَّذِينَ

﴿سَيَصِيبُ الَّذِينَ﴾ "There will afflict those who committed crimes debasement before Allah and severe punishment for what they used to conspire." [Al-An'am: 124]
