**America Prolongs the War to Achieve its Agenda, Burning People, Trees, and  
Stones – There Is No Way Out Except through the Khilafah (Caliphate)!**

(Translated)

On Sunday, August 11, 2024, meetings in Jeddah concluded between a delegation from the Sudanese government and the U.S. Special Envoy to Sudan, Tom Perillo, without reaching any understandings regarding the negotiation agenda and observers. After the return of the negotiating delegation, the government issued a statement noting the U.S. delegation's failure to push the rebel militia to commit to implementing the Jeddah Declaration, which includes a commitment to protecting civilians in Sudan. The statement added, "The U.S. delegation did not provide any justification for creating a new platform," and relied on inaccurate information in assessing the situation in Sudan.

The Sudanese government, led by the military, is fully aware that the root cause of the country's suffering is this colonial state, which harbors deep hatred toward Islam and Muslims; America, which punished the people of Sudan for more than ten years under the previous government, then divided the south and prepared the rest of Sudan's regions for separation through the infamous Naivasha Agreement, and controlled the downfall of Sudan after the revolutionary movement against the Salvation regime. America worked to create crises between the military and civilians, leading to this political vacuum and economic destruction. The Sudanese government knows all this, yet instead of severing the ropes of the colonizers, breaking free from the chains of the infidel (kafir) colonizer, and liberating the country from their shackles, the military leaders continue to follow America's orders, implementing its agenda and preserving its interests!

Let the rulers, whether military or civilian, know that governance in Islam is a responsibility and the administration of affairs according to the rulings of Islam. It is the duty of the rulers to solve people's problems and manage their affairs according to Islam. The continuation of the war is a punishment for the people, humiliating them and creating misery in the country, empowering the disbelievers to manufacture famine and deliberate impoverishment.

Although the leaders of the army and the Rapid Support Forces are capable of stopping the war and establishing security, they do not do so except under instructions from America, which holds the strings of the political game in Sudan. Let these leaders beware of Allah's wrath, for He (swt) will hold them accountable for the innocent bloodshed, the violations of honor, and the theft of wealth. Let them repent to Allah and fulfill their duty in managing the affairs of the people, starting with stopping this senseless war and then granting support to those working to establish the Khilafah Rashidah (rightly guided Caliphate) on the method of Prophethood. Muslim narrated from the Mother of the Believers, Aisha (may Allah be pleased with her), that the Prophet (saw) said: «اللَّهُمَّ مَنْ وَّلِيَ مِنْ أُمَّتِي شَيْئًا فَشَقَّ عَلَيْهِمْ فَاشْفُقْ عَلَيْهِ، وَمَنْ وَّلِيَ مِنْ أُمَّتِي شَيْئًا فَرَفَّقْ بِهِمْ» "O God, cause distress to him who has any charge over my people and causes them distress, and be gentle to him who has any charge over my people and is gentle to them."
