Only the Khilafah (Caliphate) will Stop Britain and America's Brazen Interference in our Internal Affairs

Britain and its European allies, France and Germany, along with their regional tools, the UAE, Kenya, and Chad, are seeking to hold an international conference in London on 15th April 2025, to discuss the war in Sudan. The British envoy to Sudan, Crowder, described the conference as the largest international gathering in support of Sudan since the Paris Conference in 2024. Crowder's statements came after his meeting with Al-Burhan on Wednesday, 9/4/2025. Despite his displeasure with the conference and the actions of Britain and European countries, which he expressed to the British envoy, Crowder, according to the Sudan Tribune website, and said: "The Sudanese people need the international community to address their suffering, as a result of the violations committed by the Rapid Support Forces and their supporters in El Fasher and the displacement camps, more than they need conferences to be held here and there." Al-Burhan did not dare to expel the British envoy or at least refuse to meet him, even though he sees this brazen interference in his country's internal affairs, without giving his government any weight. This is the same weak and humiliating position issued by the Ministry of Foreign Affairs, which issued a weak statement, in which it lamented the country's sovereignty being violated as a result of the announcement of holding this intended conference. The Sudanese Foreign Ministry stated in its statement dated 6/4/2025: (Foreign Minister Dr. Ali Youssef sent a written letter to his British counterpart, David Lammy, conveying Sudan's objection to his country holding a conference on Sudan without inviting the Sudanese government, while inviting other countries that are effectively parties to the war against Sudan, its people and its state.) It would have been better that this Foreign Minister had kept quiet instead of blaming colonial Britain for not inviting his government to discuss an internal matter of his country!

In response to Britain and Europe's efforts to control the Sudan file and achieve gains for their own benefit, the new colonizer, America moved to maintain its grip on the Sudan war file through the Jeddah Forum, which it launched in May 2024. Against the backdrop of the meeting between US Secretary of State Marco Rubio and Saudi Secretary of State Faisal bin Farhan in Washington, US State Department spokesperson Tammy Bruce stated in a statement: "The Secretary and the Foreign Minister also agreed that the Sudanese Armed Forces and Rapid Support Forces must return to peace talks, protect civilians, open humanitarian corridors, and return to civilian governance. They discussed the importance of the U.S.-Saudi relationship and committed to explore ways to further strengthen that partnership." All of this confirms that our country, whose sanctity has been violated, is an arena for international conflict between America, Britain, and Europe. The absurd talk about sovereignty, given the rulers, politicians, and leaders of armed movements' connections to foreign powers, is nothing but hypocrisy.

The sincere ones in all segments of society and its vital sectors must know that there is no sovereignty under the Sykes-Picot statelets established by the colonizer as functional states, that the colonizers fight over and control. If we desire to taste sovereignty, pride, and dignity, let us strive earnestly to bring the pure and pristine Islam to the seat of government through the Shariah method of establishing the Khilafah Rashida (Rightly-Guided Caliphate) on the method of Prophethood. This will uproot the influence of the kaffir colonizers from our lands and across the globe, and bring goodness to all people.
