

Press release

The Wolf is Not to be Blamed for his Aggression if the Shepherd is the Sheep's Enemy

(Translated)

Three children died in Khartoum State after receiving a measles vaccination dose. The Ministry of Health has opened an investigation into the circumstances of their deaths. Sudan Tribune learned that two children died within an hour of receiving the measles vaccine, while a third child died nine days after being resuscitated at Al-Balak Hospital in Omdurman. (Sudan Tribune, August 5, 2025)

If only this were the first time, and it won't be the last, that children die from vaccinations. Instead of investigating what's happening and verifying the dangers of these toxins to our children, we open the door wide open, never mind who among the children of Sudan dies!

This tragedy coincides with a meeting between the Minister of Health and the Regional Director of the United Nations Children's Fund (UNICEF), to discuss the agency's activities related to children, vaccinations, vaccine delivery, and epidemic control. He emphasized that UNICEF has gained the confidence of partners, including the World Bank, Global Support, and the Global Alliance for Vaccines, in obtaining funding of more than \$200 million to implement projects in Sudan.

The children of Sudan, and what is happening to them, are at the mercy of this subservient government. It trades their lives with capitalist organizations that have no religion, no morals, and no place for any human value. Indeed, everything depends on the interests they derive, even if it involves the remains of children. This is what is happening to the children of Gaza, who are dying of hunger, while these organizations stand by and watch. And before that, the children of Syria, Iraq, and Yemen. The list goes on! How can we trust death organizations that use humanitarian pretexts to advance their schemes and test vaccines on those who have no guardian or protector?! Allah has decreed in His Noble Book that the Kuffar (infidels) are our enemies. So how can we trust them and their actions toward our children?!

Who will protect Muslim children from the conspiracies in which these weak regimes are involved? Who will cut off the hands of the conspirators? Who will secure their future, provide them with a good living, a comfortable life, a good environment, and a bright future?! This entity will certainly be none other than the Khilafah (Caliphate) State, which, when it ruled, the Commander of the Faithful, Umar, would come and go to see a single crying child whose mother wanted to wean him. The mother would receive gifts from the treasury. When he prayed the dawn prayer (may Allah be pleased with him), people could not understand his recitation due to the intensity of his crying. He (may Allah be pleased with him) said: "Woe to Omar! How many Muslim children did he kill!"

O Muslims, do you not realize the vast gulf between the Khalifah (Caliph), the guardian of the Muslims, and your puppet rulers, who surrender your children to your enemy? Know that you will never be absolved of your responsibility before Allah Almighty except by working to establish the Khilafah (Caliphate), the crowning achievement of religious duties.
