The Reprehensible Crime that took the Life of the Child Mabruk As-Sultani

(Translated)

Following the horrendous crime and devastating blow that pained the city of Sidi Bouzid which took the life of the child Mabruk As-Sultani, the Women's Section in the Media Office of Hizb ut Tahrir in Wilayah Tunisia:

- Offer their most heartfelt condolences and sincerest sympathies to the stricken family in particular and the Islamic Ummah as a whole. That is because we regard the child Mabruk As-Sultani to be the son of all of the Muslims.

- Condemn the blatant aggression and consider this great calamity to be a treacherous and criminal act.

- Hold the government completely responsible for not providing the security patrols and army patrols what they require in terms of readiness, equipment and support. We similarly condemn it for failing to expose the collusion of some of the states and intelligence apparatuses in the horrendous terrorist operations in our land because the issue of terrorism will never be solved unless the whole truth is disclosed.

- Condemn and strongly criticize the delay of security intervention until after the slaughter of the child and the absence of the scrutiny and military forces from the crime's location which forced the family to search by themselves for the body of their son and then return with it to their house in spite of all the dangers surrounding that.

- Condemn the President of the State for offering his condolences to the French President at a time when giving condolences to the family of the slaughtered child is more fitting. This is especially as the secular extremist regime and its successive governments are directly responsible for the spread of terrorism which reflects their failure in dealing with it and their responsibility in respect to its existence.
