The Campaign "Expel the Colonialists so that Terrorism can End" has been finalized

The campaign, titled "Expel the Colonialists so that Terrorism can End" that we as **Hizb ut Tahrir Wilayah Turkey** initiated between the dates 18-24 April has been finalized successfully with the grace of Allah *Azza wa Jalla*. The Hizb had organized a series of activities to show that the real perpetrators of the explosions and terrorism attacks that are happening in particular in Turkey and generally in all Islamic countries are the US, Britain and all of colonialist states. These activities are:

1. On 20th of April 2016 Wednesday, a letter titled, "**Immediately Leave Our Soils that you have Terrorised through Nourishing Yourselves with Blood, Chaos and Massacres!**" has been delivered by our two different committees in the name of Hizb ut Tahrir Wilayah Turkey to the US and UK ambassadors addressed to their governments. Afterwards, these letters have been disclosed to the public.
2. On 21th of April 2016 Thursday, a letter of application has been delivered to The Grand National Assembly of Turkey (TBMM), containing a petition to close the US and UK embassies, to deport all personnel including the ambassadors and declare them persona non grata.
3. On 21th of April Thursday, we sought to form awareness on the subject over the social media. The hash tag we opened on twitter got almost 50 thousand tweets and the hash tag reached the topping trends.
4. On 22th of April 2016 Friday in Ankara, Kocatepe Kültür Merkezi, a conference themed "**The subject of Terrorism, the Real perpetrators and the Fundamental solution**" was held. In the conference, respectively the Head of the Media Office of Hizb ut Tahrir Wilayah Turkey Mahmut Kar, Journalist-Writer Ahmet Ay, International Human Rights Association President and BBP (The Great Unity Party) Vice President Remzi Çayır, MAK Consultancy President Mehmet Ali Kulat and Hizb ut Tahrir Wilayah Turkey Central Contact Committee Member M. Hanefi Yağmur made each a speech. In their speeches they have discussed the importance of the subject of terrorism, Islam's view on terrorism, the West's perception of terrorism, the heavy losses caused by terrorism, that the real perpetrators are the colonialists, the necessary steps to be taken to end terrorism and the fundamental solution.

The reactions and in particular the indictment we received against our conference from some of the secular Kemalist groups, has only increased our resolves and the tangible effect of the conference.

We ask Allah (*Subhanahu wa Ta'ala*) to reward everyone who supported the campaign with *khayr* (goodness), to let the campaign open ways for more *khayr* and to stop the blood that is flowing in our country and the entire world with the **Khilafah (Caliphate) Rashidah upon the method of the Prophethood** that will be soon established, and Allah is Most Able over this.
