While Idlib is Dying Ankara Hosts America's Contract Killer Putin

(Translated)

The patron of baby killer cruel Bashar and America's thug Putin arrived in Ankara on the 28th of September 2017 - this upon the invitation of President Erdogan. Erdogan welcomed Putin with a formal ceremony. At the joint press statement after the meeting, Erdogan expressed that he met with his dear friend Putin for the fifth time this year, and that his ministers will maintain close contacts, and that relations will continue to grow stronger. Erdogan stated the following on the main agenda, the Syria issue: *"We, as Turkey and Russia have confirmed our determination to maintain "joint will and close cooperation" to find a political solution in Syria."* And killer Putin stated the following with emphasis to the success they achieved in Syria through the contributions of Erdogan: *"We sincerely and constructively evaluated both our bilateral issues as well as the coordination of necessary steps to be taken in solving the Syrian crisis."*

Russia is a killer state fighting a proxy war on behalf of the USA. It supports the tyrant regime since the day the Syrian revolution started. It was the USA that gave Russia permission to enter Syria in order to protect the throne of the Assad regime. Disregarding all human values, Russia slaughters Muslims, children, women or civilians, through the orders of the USA. It conducts all of this in order to uphold the Assad regime who claims to be *"secularism's last fortress in the Middle East"*. So then, are the leaders of Turkey unaware of these plans and massacres? Is cooperating with Russia not cooperating with the Assad regime?

O Muslims! Do not be fooled by the heroic words and tirades of the President! See his work, his deeds and political betrayal! For Erdogan talks in a different way to his people, and in another to the leaders of Russia and America! When Erdogan said *"We are there to end the rule of the cruel Assad, who spreads state terror"* about the Euphrates Shield operation; his so-called friend Moscow exposed his betrayal with the following statement. Russian Foreign Ministry Spokeswoman Maria Zaharova said the following: *"In resolving the Syrian Crisis, we do not look at who says what, but at agreements signed during high-level meetings."* Afterwards, time revealed that the Operation Euphrates Shield was not conducted to topple the Assad regime, in contrary it was conducted in order to realize the USA's political plan to solve the crisis, to end the Syrian revolution, to take down Aleppo, and make space for Assad.

O Muslims! While the blood of the 150 innocent civilians murdered by Russia and the regime's killers had not dried, Erdogan hosted killer Putin in his palace. He did not say a single word to Putin regarding the massacres in especially schools and hospitals. Furthermore, he said he would strengthen and continue cooperation with Russia.

O Muslims! How can Erdogan welcome Putin, the slayer of the Afghans and Chechans and now the Syrian people? How can he make more agreements with this butcher to kill more of our brothers and sisters? How does this impotent regime think to save our brothers and sisters in Syria when opening its bases to the USA, joining the Crusader Coalition, and cooperating with Russia and Iran? No! By Allah! You cannot save the oppressed through the oppressor and the victim through the killer! You can only save your seats through these incapable policies! Can those who welcome Putin with red carpets and shake his bloody hands be Ansar? Can they represent us? For our friends are the Muslims of Idlib, Aleppo, Hama and Homs. And not Putin of Moscow and Trump of Washington!
