

Press Release

**The American Lise Grande in Yemen does not Deserve to Die!!
And Mohamed Ali al-Houthi Reassures the World Food Program to Stay**

(Translated)

The people of Yemen have been caught up in the tumultuous accusations between the Houthis on the one hand and the World Food Program on the other, on the corruption of their dealings. Amidst this astonishment, on Sunday, June 23, 2019, Lise Grande appeared in Sanaa Customs, accompanied by member of the Supreme Political Council Mohammad Ali Al-Houthi and Deputy Prime Minister for Development and Economic Affairs Hassan Mabbouli.

So, who is Lise Grande? She is a US citizen and is the United Nations Resident Representative and the Humanitarian Coordinator in Yemen. She is the successor of Jamie McGoldrick who was bid farewell like a hero by the Houthi leadership when he left Yemen last year!

The aim of this appearance in visiting Customs and talking about the seizure of hundreds of tons of corrupt food and medicine shipments was to acquit the United Nations Resident Representative Lise Grande, who is the first to be responsible for the suspicious transactions carried out by the food program, that had nothing to do with corrupt and damaged food shipments provided by the World Food Program (WFP) of the United Nations. Although they are the primary culprits in what has been and is being carried out by the suspicious transactions carried out by the Food Program.

The display of the attack on the World Food Program is a covering for the international organizations working in Yemen, not exposing them to the people, and the seriousness of their actions in the cities and rural areas of Yemen, and preserving the millions of dollars that these organizations generate, even if they decimated crops and animals.

The appearance of Lise Grande in Sanaa reminds us of the appearance of Ramsey Clark, the special envoy of President Jimmy Carter, at the demonstrations in 1979 in Tehran, which raised the slogan "Death to America" especially as America is the one behind the collection of nearly three billion dollars, and is directing it to Yemen.

The Houthis reach out to America and deceive their followers with the slogan "Death to America." The Houthis are not serious about cutting the deals with the World Food Program, as evidenced by the speech of Mohammed Ali al-Houthi, who said: "the willingness of the government and the concerned parties to agree on a system that does not compromise the security and sovereignty of the country and achieves the necessary verification standards for the program." (Al-Thawra Newspaper, Monday 24/06/2019)

They are also not serious about not dealing with international organizations, though already have been exposed to engage in political, espionage and missionary activities. The international organizations have been welcomed by the Supreme Political Council, while turning a blind eye to all the harmful actions that they carry out, especially as they are providing millions of dollars and carrying out their suspicious work across the country.

The one most deserving to be confronted and expelled from Yemen is Lise Grande, who was sent by America to Yemen, and the World Food Program (WFP) rather than appeasing it to stay in return for further concessions, as well as all organizations operating in Yemen.

Look at the history of Muslims, you will find that they have never relied on crumbs thrown to them by the international organizations, in service for the designs of the Western colonial countries, and that taking care of Muslims can only be under the second Khilafah Rashidah (rightly guided Caliphate) state on the method of the Prophethood.
