

Answer to Question

The Jewish Entity's Aggression Against Iran and Its Repercussions

(Translated)

Question:

Al Arabiya published on its website on 27/6/2025: "Four informed sources said that the administration of President Donald Trump discussed the possibility of helping Iran access up to \$30 billion to build a nuclear program for civilian energy production. The sources added that these discussions continued this week after the ceasefire agreement was reached. Trump administration officials confirmed that several proposals had been put forward, both preliminary and advanced, with one fixed, non-negotiable clause: "total cessation of Iranian uranium enrichment."

Trump had announced the implementation of the ceasefire he proposed between Iran and the Jewish Entity. ("Netanyahu said he had agreed to Trump's proposal. Reuters also quoted a senior Iranian official saying that Tehran had agreed to the ceasefire, mediated by Qatar and based on an American proposal." (Al Jazeera, 24/6/2025)

All of this happened after Trump's forces struck Iranian nuclear facilities on 22/6/2025, and after the Jewish entity launched a surprise, large-scale aggression against Iran on 13/6/2025. The question is: Why did the Jewish entity carry out this surprise aggression, when it only carries it out upon America's order? Also, is not that Iran orbits in America's orbit? So why did America participate in striking Iranian nuclear facilities? Thank you.

Answer:

For a clear answer, we will review the following points:

1- Yes, the Iranian nuclear program is considered a grave threat to the Jewish entity, and therefore it wants to eliminate it by all means. For this reason, it hailed President Trump's withdrawal from the 2015 agreement in 2018. The Jewish entity's position was clear: it only accepts the Libyan model and Iran's dismantling of its nuclear program, i.e. Iran abandoning its nuclear program entirely. It intensified its spies inside Iran for this purpose. On its first day, the Jewish entity's attack revealed an army of agents inside Iran who monitor and cooperate with the Jewish entity's intelligence agency, the Mossad, for a small price. They import drone parts, assemble them in small workshops inside Iran, and launch them at targets, including the homes of Iranian regime leaders. This scenario is similar to what happened to Hezbollah in Lebanon when the Jewish entity assassinated its leaders!

2- America's position was the primary supporter of the Jewish entity, and indeed the driving force behind them against the Iranian nuclear project. However, Trump has put on the table to achieve this: a negotiated solution and a military solution. Thus, in April 2025, America and Iran headed to Muscat, Oman, for negotiations. The Trump administration praised them for the depth of the concessions made in the nuclear negotiations, as if a new nuclear agreement was just around the corner. Trump had set a two-month deadline to complete this agreement. Officials of the Jewish entity met with the American envoy to the region and the first negotiator for Iran, Witkoff, almost once before every meeting with the Iranian delegation, so that the American negotiator could brief them on what was happening in the negotiations.

3- The Trump administration has adopted the hardline views of some of its leaders, a view that is in line with the Jewish entity. This coincided with the emergence of hardline views in Europe as well. European countries were irritated that the US was negotiating with Iran alone, meaning that America would receive the lion's share of any agreement with Iran, especially since Iran was tempting the Trump administration with talk of hundreds of billions of dollars that American companies could invest and benefit from inside Iran, such as oil and gas contracts, airline companies, and much more. These hardline views culminated in the emergence of a hardline report by the International Atomic Energy Agency (IAEA) announced today, Thursday, June 12, 2025, that Iran had violated its obligations in the field of non-proliferation of nuclear weapons: "The UN nuclear watchdog IAEA has condemned Iran for

being in breach of its non-proliferation obligations for the first time in almost two decades, diplomatic sources have said,” (Deutsche Welle, 12/6/2025). The Iranian Supreme Leader had previously refused to halt enrichment: (Khamenei said: “Since negotiations have come up, I want to give a warning to the opposing side. The American side that engages in these indirect talks and have discussions, should try not to spout nonsense...Saying things like 'we won't allow Iran to enrich uranium' is way out of line. No one is waiting for anyone's permission. The Islamic Republic has its own policy, its own approach, and it will continue to pursue it.” Witkoff, Trump's envoy to the Middle East, said on Sunday that Washington would not accept any level of uranium enrichment in a potential deal with Tehran. “We cannot allow even 1 percent of an enrichment capability,” Steven Witkoff told ABC News. “Everything begins from our standpoint with a deal that does not include enrichment...” (Iran International, 20/5/2025).

4- With Iran's refusal to stop enrichment and America's insistence on stopping it, the US-Iranian negotiations reached a dead end, even if the negotiations were not declared over. However, with the issuance of the International Atomic Energy Agency's report on 12/6/2025, the Jewish entity accelerated a plan hatched at night with America and launched a surprise attack on 13/6/2025, during which it struck the Iranian nuclear facility at Natanz, the largest Iranian uranium enrichment plant with 14,000 centrifuges. It also carried out a series of assassinations of Iranian military and Revolutionary Guard leaders, as well as nuclear scientists, and attacked missile launch pads. Regardless of the Jewish entity's justification for its attack, which is that Iran has resumed nuclear weapons research and development, according to Netanyahu (RT, 14/6/2025). All of this is refuted by the many Iranian statements, that Iran does not plan to produce any nuclear weapons, and that it accepts any level of international monitoring to ensure the peaceful nature of its nuclear program. But it is also certain that the Jewish entity was waiting for the American green light to implement it, and when the entity saw that this window had been opened with the green light, it began the attack.

5- Thus, no sane person can imagine that the Jewish entity would carry out such an attack without a green light from America. This is absolutely impossible. (US Ambassador to 'Israel', Mike Huckabee, said on Thursday, “Israel is unlikely to attack Iran without a green light from Washington.” (Arab48, 12/6/2025). And after a 40-minute phone call between Trump and Netanyahu, “An Israeli official revealed to The Times of Israel on Friday that Tel Aviv and Washington had carried out “a multi-faceted misinformation campaign” with the active participation of Donald Trump, with the aim of convincing Iran that an attack on its nuclear facilities was not imminent. He explained that the 'Israeli' media at that time had received leaks claiming that Trump had warned Netanyahu against attacking Iran, describing those leaks as "part of the deception operation." (Al Jazeera Net, 13/6/2025). In addition to all this, America supplied the Jewish entity with special weapons prior to the attack, which were used in the attack: (“Media reports revealed that the United States covertly shipped approximately 300 AGM-114 Hellfire missiles to Israel last Tuesday, according to US officials. According to the Jerusalem Post, “two US officials confirming that Washington had advance knowledge of Jerusalem's plan to strike Iranian nuclear and military targets early Friday. The same officials said US ground-based air-defence assets later helped Israel intercept more than 150 Iranian ballistic missiles fired in response. A senior US defense official was quoted as saying that the Hellfire missiles “were useful to Israel,” noting that the IAF (Israeli Air Force) used more than 100 aircraft to hit senior Revolutionary Guard officers, nuclear scientists and control centres around Isfahan and Tehran.” (Jerusalem Post; RT, 14/6/2025).

6- Thus, the Trump administration misled Iran - while negotiating with it- to make the attack by the Jewish entity effective and impactful by shock and intimidation. American statements indicate this, that America wanted the attack by the Jewish entity to be an incentive for Iran to make concessions in the nuclear negotiations. This means that the attack was a tool of American negotiation. This is coupled with the American public defense of the attack by the Jewish entity and that it was self-defense, and the supply of weapons to the entity and the operation of American aircraft and air defenses to repel the Iranian response. All of this amounts to a semi-direct American attack. Among these American statements is Trump's statement, during his statements to reporters on Sunday, while heading to the G7 summit in Canada, that, “Sometimes they have to fight it out.” “In an interview with ABC, Trump indicated the possibility of the United States intervening to support 'Israel' in eliminating the Iranian nuclear program.” (Arab48, 16/6/2025).

7- America is using war as a tool to subjugate Iran, as in Trump's previous statement that "Sometimes they have to fight it out, but we're going to see." This is confirmed by Trump's description of this attack, saying, "The Israeli attack on Iran was excellent." He said, " We gave them a chance and they didn't take it. They got hit hard, very hard. They got hit about as hard as you're going to get hit. And there's more to come, a lot more." (ABC, 13/6/2025). Trump said, "The Iranians want to negotiate, but they should have done so before. I had 60 days, they had 60 days, and on the 61st day, I said, 'We don't have a deal.'" (CNN, 16/6/2025). These statements clearly indicate that America is the one that allowed the Jewish entity to launch this aggression, and even instructed it to do so. Trump wrote on the Truth Social platform: "Iran should have signed the 'deal' I told them to sign... Simply stated, IRAN CAN NOT HAVE A NUCLEAR WEAPON. I said it over and over again!" (RT, 16/6/2025). A Jewish entity official clarified regarding America's participation in the bombing of the underground, fortified Fordow site in Iran: "The United States may join the military operation against Iran, noting that Trump indicated during a conversation with 'Israeli' Prime Minister Benjamin Netanyahu that he would do so if necessary." (Al Arabiya, 15/6/2025).

8- And this is what actually happened. Early Sunday morning, 22/6/2025, Trump announced "the targeting of three Iranian nuclear facilities, confirming the success of the American strike. Trump pointed to the targeting of the Fordow, Natanz, and Isfahan nuclear sites, calling on Iran to make peace and end the war. For his part, US Defense Secretary Pete Hegseth confirmed that the American strike had "obliterated" Tehran's nuclear ambitions." (BBC, 22/6/2025). Then, CNN revealed on Monday evening that Iran had attacked the US Al-Udeid base in Qatar with short- and medium-range ballistic missiles, indicating that US military aircraft stationed at the air base had been moved at the end of last week. Reuters also reported: "Iran gave advance notice to the U.S. via diplomatic channels hours ahead of the attack, as well as to Qatari authorities." (Sky News Arabia, 23/6/2025). On Monday, Trump said, "I want to thank Iran for giving us early notice...which made it possible for no lives to be lost, and nobody to be injured." (Sky News, 24/6/2025).

9- Then, after these attacks by America and the Jewish entity and the Iranian responses, where the material losses were massive in addition to the human losses: "An Iranian Health Ministry spokesman said that the Israeli strikes resulted in the martyrdom of 610 people and the injury of 4,746 others since the beginning of the conflict... According to the Israeli Health Ministry...The death toll since June 13th has risen to 28 people..." (BBC News, 25/6/2025), after these attacks, Trump, just as he started them by pushing the Jewish entity to attack Iran and participated in it, is now announcing a ceasefire, so that the Jews and Iran agree, as if Trump is the one managing the war between the two parties and also the one stopping it! "Trump announced the implementation of the ceasefire he proposed between Iran and the Jewish entity." "Netanyahu said that he agreed to Trump's proposal. Reuters also quoted a senior Iranian official as saying that Tehran agreed to the ceasefire with Qatari mediation and an American proposal." (Al Jazeera, 24/6/2025). This means that this war that Trump started and then stopped was to achieve his goal of eliminating the effectiveness of Iran's nuclear and missile weapons (in a statement to reporters before leaving to attend the NATO summit in The Hague, Trump said, "The nuclear sites in Iran are completely destroyed!" and it will never rebuild its nuclear program." He continued, "Israel will not attack Iran... and the ceasefire is in effect." (Al Jazeera, 24/6/2025).

10- As for Iran revolving in America's orbit, yes, Iran is a state revolving in America's orbit, seeking to achieve its interests by achieving America's interests. Thus, it helped America occupy Afghanistan and Iraq and consolidate its occupation there. It also intervened in Syria to protect America's agent, Bashar al-Assad, and did the same in Yemen and Lebanon. By doing so, it seeks to achieve its interests in these countries and become a major regional power in the region, even if it revolves in America's orbit! However, they forgot that when America sees that its interests have ended in the orbiting state and wants to reduce its role and power, it pressures it diplomatically, and if necessary, militarily, as is happening with Iran in the recent attacks, in order to control the rhythm of the orbiting state. Therefore, through this attack, which was ordered and executed by the Jewish entity and with its support, it is eliminating the military leadership, especially the nuclear division and the advisors who have recently tried to have a say in dealing with the Jewish entity against America's wishes. It does not care about these countries because it realizes that these countries will ultimately accept the solution crafted by America!

11- This is what began to appear publicly in the American plan after the ceasefire, which is to end Iran's military nuclear weapons: (Four informed sources said that the administration of President Donald Trump discussed the possibility of helping Iran access up to \$30 billion to build a nuclear program for producing energy for civilian purposes, easing sanctions and freeing up billions of dollars in restricted Iranian funds, all of which is part of an intensive attempt to bring Tehran back to the negotiating table, according to the American CNN network. The sources reported that key players from the United States and the Middle East held talks with the Iranians behind the scenes, even in the midst of a wave of military strikes on Iran and Israel during the past two weeks. The sources added. These discussions continued this week after the ceasefire agreement was reached. Trump administration officials confirmed that several proposals had been put forward, both preliminary and advanced, with one fixed, non-negotiable item: "a complete halt to Iranian uranium enrichment." (Al Arabiya, 27/6/2025)

12- Finally, the calamity of this Ummah lies in its rulers. Iran was threatened with an attack, but it did not initiate an attack in self-defense, although an attack is the best means of defense against the Jews. Rather, it remained silent until its facilities were struck and its scientists killed, and then it began to respond. The same applies to the American attack. Then Trump announced a ceasefire, and the Jews and Iran agreed. After that, America held discussions and made proposals, and said that "a complete halt to Iranian uranium enrichment" is fixed and non-negotiable! We warn that this war could lead to any form of a "peace deal" with the Jewish entity, or the disarmament of Iran. As for the other rulers in the Muslim countries, especially those around the Jewish entity, enemy planes fly over their heads, bomb Muslim countries, and then return reassured without a single shot being fired at them!! They are at America's disposal... they justify sitting idle, they sanctify borders, and they forgot or pretended to forget that the lands of Muslims are one, whether they are in the farthest reaches of the earth or the nearest! And that the peace of the believers is one, and their war is one, it is not right for their sects to divide them as long as they are Muslims... These rulers are doomed, for they think that by this subservience to America they will be saved, and they do not realize that America will isolate them and disarm them, if they pose a threat to the Jewish entity, as it did in Syria when it allowed the Jewish entity to destroy its military installations, and is doing the same in Iran. These rulers will inherit humiliation in this world and the Hereafter: ﴿سَيُصِيبُ الَّذِينَ أَجْرَمُوا﴾ **"The wicked will soon be overwhelmed by humiliation from Allah and a severe punishment for their evil plots"** [Al-An'am: 124]. Will they comprehend? Or are they: ﴿صُمٌّ﴾ **"...deaf, dumb and blind so they have no understanding."** [Al-Baqara: 171].

O Muslims: You see and hear what your rulers have brought to you of humiliation, disgrace, and subservience to the kafir (disbelieving) colonizers, even the Jews who have been humiliated and are destitute occupy the Blessed Land! You undoubtedly know that you will have no glory except through Islam and the Islamic state, the Khilafah Rashidah (Rightly-Guided Caliphate), in which a Rightly-Guided Caliph leads you, behind whom you fight and by whom you are protected, and it will happen, Allah willing, at the hands of the sincere believers, and his (saw) words will come true: ﴿لَتَقَاتِلَنَ الْيَهُودَ﴾ **"You will fight the Jews and will kill them"** Then the earth will shine with the victory of Allah Al Qawi, Al Aziz, Al Hakeem (The Strong, The Mighty, The Wise).

In conclusion, Hizb ut Tahrir, the pioneer that does not lie to its people, calls upon you to support it and work with it to restore the Khilafah Rashidah (Rightly-Guided Caliphate) once again, so that Islam and its followers will be honoured; and kufr (disbelief) and its followers will be humiliated, and that will be the great victory.

﴿وَيَوْمَئِذٍ يَفْرَحُ الْمُؤْمِنُونَ * بِنَصْرِ اللَّهِ يَنْصُرُ مَنْ يَشَاءُ وَهُوَ الْعَزِيزُ الرَّحِيمُ﴾

"And on that day the believers will rejoice * at the victory willed by Allah. He gives victory to whoever He wills. For He is the Almighty, Most Merciful" [Ar-Rum: 4-5]

3 Muharram 1447 AH
